

Anirudh Warriier

Performance Engineer | Developer | Tech Enthusiast

Looking forward to an exciting and compelling career in software engineering that will utilize and enhance my skill set. Aspiring to work hand in hand with complete production lifecycle of applications to fix challenging performance bottlenecks. Looking forward to push the limits and come out with newer and better solutions to intricate problems.

WORK EXPERIENCE

QBurst Technologies, Thrissur – Kerala

OCTOBER 2018 - PRESENT (2y 9m)

Senior Engineer, QA

- Worked for a global retail giant, handling performance testing of backend microservices of their e-commerce system running primarily on AWS Cloud.
- Design and development of Gatling based unit-performance test framework for early detection of performance regressions. Integration of unit performance test into CI release cycle using Docker containers and Jenkins.
- Involved in e2e performance test on a dedicated performance environment, identified performance bottlenecks and helped resolve the same to increase the overall performance of the system while reducing the overall cost of operation.
- Worked alongside the QA Engineering team to suggest, design and develop organization-wide Automation tools, policies and frameworks.

Tools - Gatling, Docker, Hashicorp Terraform

APMs - DataDog, Kibana, Grafana

Platforms - AWS, Linux

CSS Corp, Chennai – Tamil Nadu

AUGUST 2016 - OCTOBER 2018 (2y 2m)

Engineer- Performance Testing and Engineering

End to end performance testing of web applications- monitoring of application stack, analyzing results and providing suggestions to improve NFRs, implementing the suggestions on the system. Analyzing the front end performance of web applications and providing key recommendations for improvement. Worked on R&D projects in the purview of PT/PE

Tools - Apache JMeter, LoadRunner, Selenium

APMs- inspectIT, TIG stack, NewRelic, Dynatrace

Platforms- Microsoft Azure, AWS, Linux

SKILL ENHANCEMENT

Advanced Certification in Software Engineering, IIT Madras & Great Learning

DECEMBER 2020 - PRESENT

Advanced certification for working professionals, with specialization in Cloud, IoT, Blockchain

A11, Anjali Gardens Apartments
Pallipuram Post, Palakkad,
Kerala, India. PIN- 678006

m: (+91) 889-1550070

e: anirudhwarrier@gmail.com

SKILLS

Gatling, Apache JMeter

Java, Python

ACHIEVEMENTS

Kudos, QBurst 2020- for effective e2e performance test engagement for a major brand release

Hi-Flyer Award, CSS Corp
July 2017- for contributions to team

NSITE 2k15, Project Expo-
Second prize secured for project titled VDHCN

Infosys Aspirations 2020
Runner up of State level Programming contest, Oct 2013

INTERESTS

Learning new technologies

Problem solving

Photography

Driving

EDUCATION

B.Tech (Computer Science)

2012-2016 | University of Calicut |
Aggregate 67.9 %

Senior School – AISSCE

2011 | CBSE | Aggregate 75.2 %

Secondary School – AISSE

2009 | CBSE | Aggregate 82 %
